

product description:

Box designated for distribution systems with voltage up to 400 V
 For installation in insulated building facades 80-140 mm thick, or as a box under plaster
 Use as a distribution box, for measuring the lightning conductor terminal and other applications as required by the customer
 Box depth is adjustable
 The kit contains the box and V 180 straight cover + stainless bolts
 When installing on exterior plaster, it is recommended to seal the cover with silicone, or rubber-based window seal (IP 44)
 Robust design
 Protected by European industrial design
 Installation video at www.kopos.cz

material: PC ABS, halogen-free

color: gray

self-snuffing: yes, within 30 s

temperature resistance: -25 - +60 °C

flaming loop test: 850 °C

fire class for underlying material: A1-F

protection types: IP 30

protection types: IP 44 - seal under the cover, plaster roughness up to 2 mm

weight: 475 g

meets the requirements: ČSN EN 60670-1, ČSN EN IEC 60670-1 ed. 2:21

storage: ČSN 64 0090

KUZ-V_KB - individual boxes packed in separate carton

accessories:

- terminal plate S-KSK 2
- screwless terminal plates TYP015, TYP016, TYP017, TYP018
- support trunking TS35
